

This is our terms and conditions page.

It's mostly blank because we trust you to be a good consumer/vendor while you're using the This Little Piggy app.

But let's be honest.

You wouldn't have read it anyway.

We could have included a clause that said you had to eat kumquats for every meal for the next year.

You would have agreed to the T&C's regardless.

And you would have been stuck eating this bizarre fruit for the next year.

But we didn't include kumquats in our legal documentation.

Because we are nice.

Enjoy your fruits and vegetables!

Be kind to each other!

And look up what a kumquat is. It's probably not what you expect.

I've spent my entire existence thinking they were green.

And that they were a vegetable.

Now we all know something new.
